Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to update reference to the Recommended Childhood and Adolescent Immunization Schedule from the 2005 version to the 2006 version effective July 1, 2007 and to remove the expired implementation effective date for varicella. This will make Washington State school and child care immunization age and interval requirements consistent with national standards. This will have the effect of changing the requirement from a Td (tetanus and diphtheria) booster to a Tdap (tetanus, diphtheria, and pertussis) booster at 11 - 12 years of age.

Reasons supporting proposal:

This proposal is necessary for schools and child care centers to follow best practices for childhood immunization in Washington State and to ensure Washington State immunization requirements reflect national immunization recommendations.

Statutory authority for adoption:

RCW 43.20.050

☒ No. Explain why no statement was prepared.

This proposed rule is exempt from the requirement to conduct a small business economic impact statement because it meets the exemption described in RCW 19.85.025(3), "This chapter does not apply to the adoption of a rule described in RCW 34.05.310(4)." RCW 34.05.310(4) allows exemptions from preparing a small business economic impact statement because the proposed rule incorporates a national standard by reference without material change; and clarifies language of a rule without changing its effect. The proposed rule is exempt from an SBEIS under RCW 19.85.030 because it does not impose costs on a business or industry.

Is a cost-benefit analysis required under RCW 34.05.328?

☐ Yes. A preliminary cost-benefit analysis may be obtained by contacting:

☒ No. Please explain:

This proposed rule is exempt from the requirement to conduct a cost-benefit analysis because it meets two of the criteria listed in RCW 34.05.310(4) that allow exemptions from this requirement: incorporating national standards by reference without material change; and clarifying language of a rule without changing its effect.
